FEATURED STORY

AES Develops Fully Redundant Bulk Gas Delivery System

AES introduces a new, cost-effective solution for bulk gas delivery that prioritizes safety and efficiency. This bulk gas delivery system stores compressed gas in its liquid form, using liquid tanks rather than gas cylinders, thus improving safety for operators and cost efficiency for the organization. [Learn more about SEMI-GAS Systems.](#)

FEATURED NEWS

AES is Hiring

AES is always looking for passionate and driven candidates to join our team of industry leaders who are providing premier gas delivery solutions and services. Check out our current job openings and career opportunities today.
